

# LAKE POYGAN SPORTSMEN'S CLUB

PRESERVING OUR RESOURCES  
OCTOBER, 2018 VOL. 26, NO. 10

## **UPCOMING SPEAKERS AT MEETINGS**

Please join us at our monthly meetings. Sandy hooks us up with some snacks and some of her famous devilled eggs and there is always good discussion. For some of the meetings, we also have someone presenting some pertinent information to the lakes and/or the Club.

November Meeting (tentative, probable) - Adam Nickel – giving a run-down of the fisheries data collected in 2018 by the team of fisheries people at Oshkosh DNR.

December Meeting – Art Techlow giving a historic review of Winnebago and the Pool Lake – bring any old photos that you may want to share with the group.

If you know of other speakers that you would like to see, let us know.

## **CALENDARS ARE PRINTED**

The 2018 LPSC Sportsmen's Club calendar is now available at the Viking and the Boom Bay Bar and Grill or ask one of your friendly Club officers or directors. Get yours while they last! Same as always, \$20 gets you in the hopper and after you win, your name goes back in. We only sell 1,000 and they make great gifts too (which is why we get them printed this early). Turn in sold calendars to Matt, Chico, Rose, or stop for a drink at Chico's Landing, The Viking, or the Boom Bay Bar and turn them in there. Sales end promptly on December 31st so be sure to get them in.

Thanks also to our sponsors of the calendar. Please be sure to patronize their establishments and thank them when you see them.

## **ARMY CORPS OF ENGINEERS WATER LEVEL MEETING OCTOBER 10<sup>TH</sup>, 2:00 PM**

Join many of us October 10, 2018 at 2:00 pm at the Army Corps of Engineers water level management meeting at their office at 2619 E. Capitol Drive, Appleton, WI 54911. There are always several experts on hand to talk about how the water levels are managed and lively discussion on how best to manage the water levels in the Winnebago System.

## **PROJECT UPDATES**

**Poygan Breakwall:** The first leg of the Poygan Breakwall is complete and the second phase is designed and under permit review at this time. The breakwall team consists of DNR, Winnebago County, LPSC, Ducks Unlimited, and Army Corps of Engineers.

**In-lake Fish Reefs:** We're permitted for reefs for this winter. More to follow.
